

ENOUGH IS ENOUGH

There are
25,000
small businesses
in New Brunswick.

Together, we employ
158,000
people.

That's nearly
33% of
New Brunswick's
workforce.

OTTAWA'S PROPOSED TAX CHANGES WOULD:

- Make it nearly impossible for small businesses to invest in the future and manage through hard times, requiring many to cut payroll. Jobs will be lost.
- Stifle innovation when we need it most, stalling job creation. That means fewer new jobs.
- Dry up investment in our province's startups, as investors go elsewhere – making it even harder for new businesses to get off the ground.

THESE PROPOSALS WILL **KILL** **JOBS AND HURT ALL FAMILIES.**

We call for more
time for a proper
review of our tax
laws and the
impacts to **ALL**
Canadians.

The NB Coalition for Tax Fairness represents more than **130 businesses** in this province and is growing every day.
